

Total No. of Questions: 07

# Bachelor of Science (Cyber Security) (Sem.-1) FUNDAMENTALS OF COMPUTER AND IT Subject Code: UGCA1902

M.Code: 92570

Date of Examination: 11-12-2023

Time: 3 Hrs.

Max. Marks: 60

- 1. SECTION-A is COMPULSORY consisting of TEN questions carrying TWO marks INSTRUCTIONS TO CANDIDATES:
- 2. SECTION-B contains SIX questions carrying TEN marks each and students have to attempt any FOUR questions.

# SECTION-A

# Write briefly:

- a. Discuss the impact of memory latency on CPU performance in relation to main memory access.
- b. Define the role of an ALU in CPU operations.
- c. How do high-level languages differ from low-level languages?
- d. What's the significance of conditional formatting in Excel?
- e. What's the purpose of an equation editor in MS Word?
- f. How can you apply a consistent font style to all slides?
- g. Define IMPS and its role in real-time money transfers.
- h. How does data mining extract valuable insights from large datasets?
- i. Name a potential challenge of handling big data in business.
- j. Explain the process of validating a transaction on the Bitcoin network.

0 0 DEC 2023

# SECTION-B

- Describe the hierarchy of memory in a computer system, starting from the main memory and extending to eache memory and secondary storage and explain their roles in data access and storage.
- Explain the working of hard disk drives and optical disk drives, detailing their mechanisms for data storage, retrieval and differences in data access speeds
- Write process of performing a mail merge in Microsoft Word, including creating a main document and a data source, specifying merge fields and generating personalized documents. Discuss the applications of mail merge in bulk document production.
- Explain the concept of blockchain technology underlying cryptocurrencies like Bitcoin, addressing its role in ensuring security, transparency and decentralized record-keeping.
- Explore the role of utility programs in an operating system, focusing on their functions. Explain how these programs interact with the operating system interface and contribute to overall system efficiency?
- Compare and contrast different presentation views in PowerPoint. Explain the benefits of each view in terms of rehearsing, delivering and viewing presentations.

NOTE: Disclosure of Identity by writing Mobile No. or Marking of passing request on any paper of Answer Sheet will lead to UMC against the Student.

# PROBLEM SOLVING USING C

Subject Code: UGCA1903 M.Code: 92571

Date of Examination: 13-12-2023

Time: 3 Hrs.

Max. Marks: 60

#### INSTRUCTIONS TO CANDIDATES:

- SECTION-A is COMPULSORY consisting of TEN questions carrying TWO marks each.
- SECTION-B contains SIX questions carrying TEN marks each and students have to attempt any FOUR questions.

#### SECTION-A

## 1) Write briefly:

- a) What is the purpose of adding comments in a program?
- b) Define return statement.
- c) What is the difference between j++ and ++j?
- d) What is pointer to pointer?
- e) Write two differences between Structure and Union.
- f) What is file handling in C language?
- g) Define pseudocode.
- h) When do we use the Bitwise operator?
- i) What is function prototyping?
- j) What is the drawback of declaring variables as global?

0 0 DEC 2023

#### SECTION-B

- 2) Write a Program to perform arithmetic operations using switch statement.
- 3) Draw the flowchart to find the greatest of three numbers.
- 4) Explain the working of the "do-while" loop with an example. Discuss its pros and cons.
- 5) Explain the role of strings in C programming. How are string functions utilized?
- Discuss the role of file handling in programming. Describe the steps involved in opening, reading and closing a file.
- Describe the process of passing arrays to functions in C programming. Provide examples to illustrate the concept.

NOTE: Disclosure of Identity by writing Mobile No. or Marking of passing request on any paper of Answer Sheet will lead to UMC against the Student.

- SECTION-A is COMPULSORY consisting of TEN questions carrying TWO marks each.
- SECTION-B contains SIX questions carrying TEN marks each and students have to attempt any FOUR questions.

#### SECTION-A

## 1. Write briefly:

- a) Verbal communication
- b) Report writing
- c) Role of channel in communication
- d) Interpersonal communication
- e) Gestures
- f) Social communication
- g) Business letter
- h) Feedback
- i) Closed reading
- j) Documenting.

0 0 DEC 2023

#### SECTION-B

- 2. What is the role of non-verbal communication in the process of communication?
- Explain the process of communication along with diagram.
- 4. Discuss the barriers to communication and its strategies to overcome them.
- 5. Write a letter to the Bank Manager for closing of the current account in the bank.
- 6 What are the factors influencing written communication? Cite examples.
- Draft a report for ABC Company for promoting their new launched 'Air Filters' in the marketplace.

NSTRUCTIONS TO CANDIDATES:  1. SECTION-A is COMPULSORY consisting of TEN questions carrying TWO marks each.  2. SECTION-B contains SIX questions carrying TEN marks each and students have to attempt any FOUR questions.
SECTION-A
1. Write briefly:
a) Differentiate between parallel and serial transmission.
b) Define the Simplex, Half Duplex and Full Duplex modes of communication.
c) What are the Transmission Impairments? Explain in brief.
d) What is multiplexing and what are its benefits?
e) Explain the term SLIP in brief.
f) What are the responsibilities of data link layer?
g) Why the congestion occurs in network?
h) What are congestion control policies?
i) Explain in brief about UDP protocol.
j) Explain the term Remote Procedure Call (RPC) in reference to session layer.

## SECTION-B

- 2. What is network topology? Discuss different network topologies.
- 3. Explain and compare the important features of circuit, message and packet switching.
- 4. Write a detailed note on OSI reference Model.
- 5. Explain in detail about IEEE 802.4 Token Bus standard.
- 6. Write a detailed note on shortest path routing.
- 7. Write a detailed note on the following:
  - a) Domain Name System (DNS)
  - b) File Transfer Protocol (FTP)
  - c) HTTP.

0 0 000 2023

#### SECTION-B

- Describe the stages of a typical ethical hacking process from initial recommissance and scanning to vulnerability assessment and penetration testing.
- 3. Describe the difference between active and passive footprinting. What are the advantages and disadvantages of each approach in gathering information about a target system?
- 4. What is port scanning? Discuss different strategies/techniques for port scanning.
- What is remote password guessing? Discuss the differences between brute force attacks, dictionary attacks and rainbow table attacks.
- 6. What are the key security risks associated with wireless networks and how do ethical hackers test and secure them?
- 7. Write a short note on:
  - a. HTTPS sniffing
  - b. Three-way handshake vulnerabilities in TCP/IP

#### SECTION-B

2.	Explain	the	history of	forensic	in	detai
----	---------	-----	------------	----------	----	-------

Write the methods to search and seizure electronic evidence.

Explain all the important open source security tools for network forensic analysis.

Explain in detail the evidence management and presentation techniques.

Explain the different challenges associated with mobile phone forensics.

Write in detail the Information Technology (Amendment) Act, 2008.

Total No. of Pages: 02 Roll No.

Total No. of Questions: 07

B.Sc. (CS) (Sem-4) **DIGITAL FORENSICS** Subject Code: UGCA2002 M.Code: 93438

Date of Examination: 24-11-2023

Time: 3 Hrs.

# INSTRUCTIONS TO CANDIDATES:

- 1. SECTION-A is COMPULSORY consisting of TEN questions carrying TWO marks
- 2. SECTION-B contains SIX questions carrying TEN marks each and students have to attempt any FOUR questions.

# SECTION-A

# Write briefly:

- a) What is digital forensic?
- b) What is steganography?
- c) Explain Cyber bullying.
- d) Write about 2 registry analysis tools.
- e) Write the importance of Crime scene investigation.
- f) What do you mean by "USB debugging"?
- g) What are different types of evidences?
- h) What is the role of Windows registry?
- i) What is Section-66 of IT Act, 2000?
- j) Write about software piracy.

NOTE: Disclosure of Identity by writing Mobile No. or Marking of passing request on any paper of Answer Sheet will lead to UMC against the Student.

# B.Sc (Cyber Security) (Sem.-5) ADVANCED WEB TECHNOLOGIES

Subject Code: UGCA2019 M.Code: 94063

Date of Exmination: 17-11-2023

Time: 3 Hrs.

Max. Marks: 60

#### **INSTRUCTIONS TO CANDIDATES:**

1. SECTION-A is COMPULSORY consisting of TEN questions carrying TWO marks each.

SECTION-B contains SIX questions carrying TEN marks each and students have to attempt any FOUR questions.

#### SECTION-A

## 1. Explain the following:

- a) CMS
- b) MySQL
- c) Client
- d) Cookies
- e) Ajax
- f) ReactJ S
- g) NPM
- h) Array
- i) Function
- j) Iteration

0 0 DEC 2023

#### SECTION-B

- 2. Write a note on server-side web scripting.
- 3. Define functions. Explain its working with help of example.
- 4. Explain various data types and types of type conversion.
- 5. Write a note on XML syntax and editor.
- 6. Describe various elements, attributes used in creating XML documents.
- 7. Discuss the various components of Bootstrap. Explain the working with events.

LINUX OPERATING SYSTEM

Subject Code: UGCA2021 M.Code: 94068

Date of Examination: 21-11-2023

Time: 3 Hrs.

Max. Marks: 60

#### INSTRUCTIONS TO CANDIDATES:

- SECTION-A is COMPULSORY consisting of TEN questions carrying TWO marks each.
- SECTION-B contains SIX questions carrying TEN marks each and students have to attempt any FOUR questions.

#### SECTION-A

## 1. Write briefly:

- a) What is GNOME?
- b) Write any command for listing file.
- c) What are aliases?
- d) What are pipes in Linux?
- e) Discuss variables in a shell script.
- f) What is the purpose of the chmod command in Linux?
- g) Discuss Java clients.
- h) Give concept of super user.
- i) Discuss Backup management.
- j) What is virtualization?

# 0 0 DEC 2023

#### SECTION-B

- What is the Linux Operating System and how does it differ from other operating systems?
- 3. Briefly explain different types of text editors commonly used in Linux.
- 4. Discuss different types of shells available in the Linux operating system.
- 5. Explain how new users are managed in Linux Administration?
- 6. Which office and database application is commonly used on Linux?
- 7. What are the different types of statements commonly used in a shell script?

**CLOUD COMPUTING** 

Subject Code: UGCA1936

M.Code: 94071

Date of Examination: 23-11-2023

Time: 3 Hrs.

Max. Marks: 60

# INSTRUCTIONS TO CANDIDATES:

- 1. SECTION-A is COMPULSORY consisting of TEN questions carrying TWO marks
- SECTION-B contains SIX questions carrying TEN marks each and students have to attempt any FOUR questions.

#### SECTION-A

# Write briefly:

- a) Give overview of cluster computing.
- b) Compare cloud vs grid computing.
- c) Write any two advantages of cloud.
- d) What is Hypervisor?
- e) Define load testing:
- f) Discuss server types.
- g) Give basis of scalability.
- h) Discuss the use of SLA.
- i) Define cloud storage access.
- i) Give introduction of Windows Azure Platform.

0 0 DEC 2023

#### SECTION-B

- Discuss the cloud deployment model with its characteristics.
- What is Virtualization? Discuss the benefits of Virtualization.
- Explain in capacity planning. How network capacity effects the performance?
- Explain the importance of SLA management in cloud computing. Discuss its types.
- Explain cloud security. Discuss the cloud security reference model to describe the storage access.
- 7. Discuss how Google App engine Web Services, cloud tools and services are providing support to the customers.

NOTE: Disclosure of Identity by writing Mobile No. or Marking of passing request on any paper of Answer Sheet will lead to UMC against the Student.
